

Hustle™ X-RAY

BEHIND THE DESIGN:

Since their conception back in 2016, the Hustle Series of bowling balls has provided outstanding performance above and beyond the retail price. From the 34th sanctioned 900 Series by the Hustle™ INK, to countless TV appearances over the years on both the PBA & PWBA Tours. The various versions of the Hustle's have provided consistent reactions time and time again.

And while the inner Hustle Core has remained the same since day one, it's the different variations of the VTC™ (Versatile Traction Control) Coverstock - Solid, Pearl & Hybrid, that have kept this line viable on those Light to Medium Oil conditions for every level of bowler from the first-timers, all the way up to the pros.
