The Fate™ was strikingly crafted with the intent of offering versatility for any style that might use it. We targeted an RG value that's neither too high nor too low – something just right. Positioned for control and adaptability, the F-8's motion was as elegant as it was potent. Now, clad in fresh resin and armed with a brilliant finish, we retraced some of our steps with the Journey. We asked Jason Belmonte, one of bowling's greatest professionals, which Storm ball should last forever. Jason replied: "Obviously, the Phaze II. TX-16 is one of the best covers of our time." We agreed! For the first time ever, a cleaner adaptation of this renowned cover is hitting the lanes. Pair it with the ever versatile F-8 Core, and you now have the most exciting collaboration with Belmo to date: the Journey.

**Everyone has their own journey. Where will yours take you?**
