

Centripetal Core

R2X™ Pearl with E.T.M.

4000-grit Abralon®

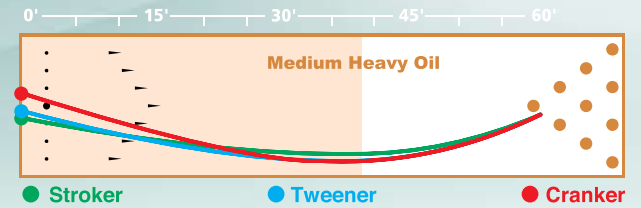

## PRODIGY™

- The low RG, symmetrical Centripetal™ core is designed to be driller friendly and guarantee consistent, predictable results from break point to the pocket.
- The addition of E.T.M. (Enhanced Traction Mica) to the pliable R2X™ Pearl coverstock increases the surface topography to create maximum lane contact for ultimate mid-lane read.
- The 4000-grit Abralon® finish can easily be sanded and/or polished to meet the needs of most bowlers.

LBS.	RG	DIFF.
16	2.48	.052
15	2.48	.050
14	2.53	.049
13	2.59	.045
12	2.65	.035
