

Shape-Lock HD

NRG - Nano Pearl Reactive Genesis

1500-grit Polished

Smell Me!

VIRTUAL GRAVITY™ NANO PEARL

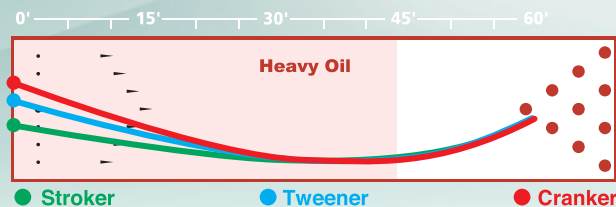

- Nanotechnology in this NRG™ pearl coverstock creates more surface texture than traditional reactives, producing more hook than ever before
- The Shape-Lock HD™ core's low RG, asymmetrical design really "turns over" down lane, creating more angle through the pins
- With a 1500-grit polished pearl nano coverstock, this ball glides easily through the heads yet still handles heavy oil like the original

LBS.	RG	DIFF.	INTER-DIFF.
