

Inverted Fe³ Technology

R2S Solid Reactive

3000-grit Abralon®

VICTORY ROAD™ SOLID

- The R2S™ solid reactive coverstock ensures superior performance on medium to heavy oil lane conditions
- The professionally-designed Inverted Fe3 Technology™ weight block creates an earlier midlane read than the inverted Fe2™ while maintaining its fierce backend reaction
- Prepped with a 3000-grit Abralon® finish, the Victory Road Solid gives you the proper amount of midlane roll with ample backend motion

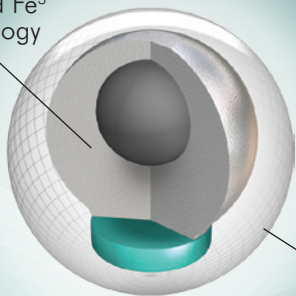

| LBS. | RG | DIFF. |
|------|------|-------|
| 16 | 2.53 | .055 |
| 15 | 2.56 | .052 |
| 14 | 2.60 | .050 |
| 13 | 2.59 | .045 |
