

Hello, my name is Peter Daly and this is why I think I am the next Storm Bowling Prodigy. I started really getting into bowling two summers ago when my family joined the Kids Bowl Free program. I really started to like it because I was fairly good. So I joined my youth league at my local bowling center. The first week I join I received some instruction from the guy that runs it and I started getting really good. The first league I went through was the fall league and my team finished in second. Then my friends and I started a team for the spring league and we tore the competition up. I was getting upwards of 150 a game and my highest score was over 210. We won the spring league and I won two other honors, High Series Scratch at 525 and Most Improved at 15.33. I know that if I received the right equipment and was consistent I would be able to bowl upwards of 225.

Bowling has brought me to a whole new level of confidence. I realized that I was good and that I had potential and I figured I would work to try to improve my game and I did. It is something I look forward to every week. Its fun and I am good at it. I couldn't join a league this summer because I was so busy. But I was persistent and I kept bowling and I seem to be improving more than I had ever imagined when I first started two years ago.

I am now a freshman in high school and looking to join the bowling club at school (there is no team). I know there are people there that are better than me but that will challenge me to do better and to one day beat them. I think what motivated me to get better than I am now was when I started my league there was a team of high schoolers and I wanted to beat them badly. My team would do our best but we would come up short. So we used the weeks coming up to our next rematch to challenge ourselves to get better. Then towards the end of the season we finally beat them. We were all proud of ourselves because we had just beaten the best team in the whole league!

Bowling has also brought my family closer together. We bowl together on occasions and we have lots of fun together. We all enjoy it because we all like to see each other do well and we encourage each other and have a great time while doing it.

I hope that with my skills in bowling I can earn a scholarship to college or even compete in a national tournament. I know I have the potential but I just have to work at it. That is the way with almost everything in life. I want to be the next Storm Prodigy.

Thank you
