

# FAST PITCH™

Shorter oil patterns and drier conditions can be as challenging as a lane with oil backed up to the head pin. The higher RG, medium differential Tour Block Weight Block keeps the Fast Pitch reading the lane exactly where its needed. Controll XL is making its debut on the Fast Pitch and blends the line between early read and entry angle, making it the most versatile Pitch series ball to date.

- 1000-grit Abralon® • Controll XL™ Solid Urethane • Tour Block™

| 16 lb | 15 lb | 14 lb | 13 lb | 12 lb | RG | DIFF |
