

# HY-ROAD™ MAX

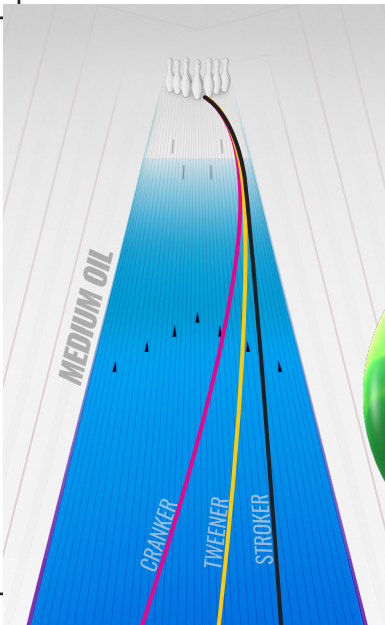

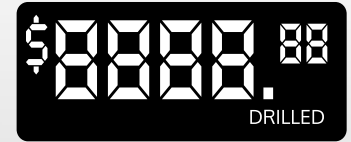

**SMELL ME! GREEN APPLE**

The Inverted Fe2 weight block has historically delivered a higher RG orientation which promotes a later transition and a cleaner shape through the front part of the lane. Add the NeX cover and you will see more change of direction down lane. NeX provides a unique chemical texture that forms weak molecular bonds with the lane which slows the ball down and is exactly what's needed in order for a ball to hook!

- 3000-grit Abralon®
- NeX™ Solid Reactive
- Inverted Fe<sup>2</sup> Technology™

16 lb	15 lb	14 lb	13 lb	12 lb		
2.52	2.57	2.58	2.59	2.65	<b>RG</b>	
.058	.046	.037	.045	.035	<b>DIFF</b>
