

# NIGHT ROAD™

**SMELL ME! CANDY CANE COOKIE**

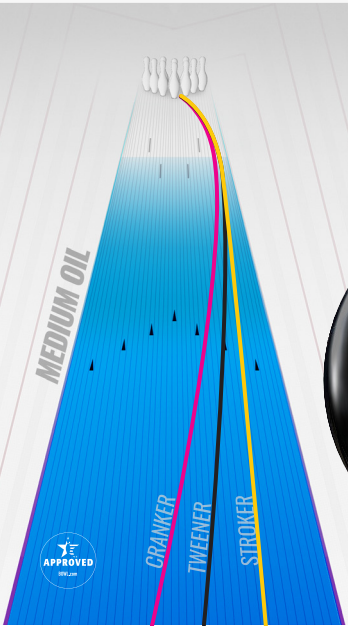

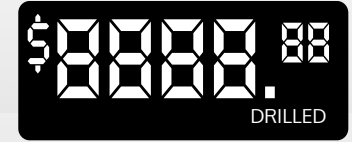

Every Hy-Road™ is the result of master engineering and precise workmanship. Inside this machine you'll find a technical tour de force, the Inverted Fe2 weight block, which features a higher RG orientation that creates more efficient power transfer to the pins at the point of impact. However, power means nothing if it isn't properly harnessed. Enter ReX! This coverstock provides the optimum response time to friction that impresses anyone who encounters it.

The result is a ball that turns heads as well as it turns the corner.
