

# Hyped™ Solid

## BEHIND THE DESIGN:

Given the success of the Hyped™ Pearl and Hyped™ Hybrid we felt it was indeed time to add a solid version to the lineup to make sure we have all the options covered in terms of Medium Oil Conditions.

The VTC™ Solid reactive coverstock will provide earlier traction on the lane than the other two options. Not to mention that if you shine this coverstock it will provide a much smoother response to friction than the other two as well. Making this version super versatile and easy to adjust for any condition you may encounter. So if you weren't already excited, it is time to GET HYPED!
