UNDRILLED

CORE:

Neutron NXT™ Core – Due to the higher RG value and medium core differential, this core produces plenty of tumble which translates to plenty of down lane motion into the pins.

COVERSTOCK:

VTC-P19™ Pearl Reactive Coverstock – Provides more responsiveness down lane with improved durability and performance.

Factory Finish: 1500-grit Polished

ENGINEERED FOR:

Light to Medium Oil Conditions

Available Weights: 16lbs – 10lbs
