

TNT™

BEHIND THE DESIGN:

Engineered to create more torque and overall explosive power than all the low RG symmetrical balls before it, the TNT is here to blow racks up and take names. This ball will have your opponent's calling the bomb squad for help.

TORQUE SPHERE TECHNOLOGY - By placing the TORQUE SPHERE just above the inner equator of the TORPEX Core, we found that not only did it create the lowest RG symmetrical Roto Grip part ever, but it also created a higher differential which translates to more overall motion and less deflection through the pins.

EXPLOSIVE PERFORMANCE - First used in a pearlized form on the RST X-2, we felt there was no better time than now to unleash the eTrax PLUS Solid version on this brand new core shape. More overall grip and responsiveness to friction than our forever famous eTrax material, this cover will still provide ease through the front of the lane while providing more overall forgiveness no matter how you toss it.

PRODUCT DETAILS:

COLOR: Amber / Fire / Blaze Orange

CORE: Torpex™ Core

COVER: eTrax™ PLUS Solid

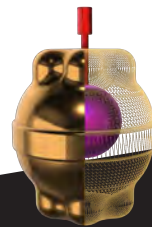

BOX FINISH: 2000-grit Abralon®

BUILT FOR: Medium to Medium/Heavy Oil

FLARE POTENTIAL: High

AVAILABLE WEIGHTS: 16 - 12 lbs.

PRODUCT SKU: RNT

16-14 lbs.

13-12 lbs.

WEIGHT	RG	DIFF
16 lbs.	2.47	.050
15 lbs.	2.47	.052
14 lbs.	2.54	.051
13 lbs.	2.59	.045
12 lbs.	2.65	.035
