CORE:

Equalizer Technology™ Core – Our Equalizer Technology (E.T.™) Core features built-in cavities to emulate the use of an extra hole for increased midlane motion and continuation down lane.

COVERSTOCK:

MicroTrax-S20™ Solid Reactive Coverstock – This formula of nano particle technology displaces oil better than previous generations, in turn creating more overall traction throughout the entire lane.

Factory Finish: 2000-grit Pad

ENGINEERED FOR:

Medium/Heavy to Heavy Oil Conditions

Available Weights: 16lbs – 12lbs
