

Disturbance™
Asymmetric Core

S84 Response™
Solid Coverstock
2000 Abralon

REALITY™

The S84 Response™ Solid Coverstock represents over a year of R&D. This is an ALL NEW formulation that increases pore sizes up to 20% larger than previous HP covers!! This cover will handle the heaviest of oil with ease.

The ALL NEW Disturbance™ Asymmetric Core features asymmetry created by varying shapes on the bottom/top of the weight block. This core will give the bowler an early revving motion combined with a strong backend!!

Use the Reality™ on heavy oil conditions for unmatched power and hook potential!!
