PRO-MOTION™

“You don’t have to be a professional to appreciate a Storm bowling ball, but you can get ball motion like one. The PRO-Motion was built with superiority in mind. Through my partnership with Storm, we continue to grow our reputation as the innovative leaders earned through decades of research and experience in the field.”

When the bowler needs substantial hook and consistency from the first roll to the last, the PRO-Motion answers the call.”

~Jason Belmonte

A new Storm bowling ball is only introduced when it satisfies real performance needs. The top and bottom hemispheres of the Piston Core create an RG sweet spot that’s not too low, not too high as the merged ellipses are constantly working together at the same time they counteract each other. This dynamic imbalance is a refinement of weight distribution for the line which gives players the ultimate ability to tailor their ball reaction akin to the pros’.

!Q™ TOUR EMERALD
