

# DOPLAR™ TEST

## !Q Tour Emerald versus !Q Tour Edition

**!Q Tour Emerald**  
 R2S™ Pearl Reactive  
 1500-grit Polished  
 C<sup>3</sup>™ Centripetal Control Core

→ **!Q Tour Emerald**

Laydown: 21.95  
 Launch Angle: -2.30°  
 Break Point: 43.00'  
 Impact Point: 17.48

**!Q Tour Edition**  
 R2S™ Solid Reactive  
 4000-grit Abralon®  
 C<sup>3</sup>™ Centripetal Control Core

→ **!Q Tour Edition**

Laydown: 26.36  
 Launch Angle: -2.50°  
 Break Point: 43.36'  
 Impact Point: 17.74

- The !Q Tour Emerald gave the perfect combination of length with control.
- The !Q Tour remains one of Storm's best benchmark balls to date.
- The !Q Tour Emerald was an excellent complement to the !Q Tour Solid.
- The C<sup>3</sup> Core's low RG and moderate differential was able to command just about any condition.
