

CODE RED™

SHOW US THE CODE

Bowling is unlike any other game in the fact that you are not able to see the obstacles in front of you. It combines mental competence with physical prowess to create a challenging, yet extremely rewarding sport. It's the bowler's duty to be ready to tackle whatever condition they are about to face. Scoring well is a matter of matching your game and equipment to the lane environment at hand. We know that your score matters to you. So, you better come prepared with the very best equipment on the market!

WITHOUT INNOVATION WE CANNOT ADVANCE

At Storm, the pinnacle of our endgame is born of a sprawling development process that spans almost every discipline of our team. Our relentless commitment to the pursuit of perfect ball motion fuels our research and development team. Storm's Code series has provided the world's best bowlers with the weapons to attack any unforeseen conditions they might encounter.

The Code Red features an extremely dense modified disc technology shape called the RAD⁴ Core. First introduced in the X-Factor™ series, RAD (Radial Accelerating Disc) technology produces, bar none, more torque and entry angle than traditional asymmetrical cores. It's the new standard for high performance.

R2S Hybrid blends out any oil pattern you throw at it. It truly is the perfect combination of midlane read and entry angle. With a Storm ball in your hands, you'll want for nothing else.

At Storm, we're working to honor your past, sustain your present, and build your future.

That's why we are "The Bowler's Company™."

TECHNICAL DATA

COVERSTOCK
R2S™ Hybrid Reactive

WEIGHT BLOCK
RAD⁴™ Core
