

MATCH UP™

EXCEEDING EXPECTATIONS

On the surface, bowling is a pretty simple game! The pins aren't moving. You can stand and aim wherever you want, every shot. Knock over ten pins time and again and go home with the trophy! But let's be honest; it's not quite that easy. You need to have the right ball at the right time. You must match up properly if you want to win. If you don't, you'll be exiting early with your head hung low.

MORE THAN MEETS THE EYE

Matching your game up with the right piece of equipment and the proper layout is critical to winning tournaments. Lane conditions change rapidly so you better be prepared. You need a true arsenal, a variety of coverstocks and cores, and we at Storm have you covered.

You'll find some killer, new weight block technology in the new Match Ups. The Stinger™ 2.0 Core offers more flare potential and hook than the original version featured in the Match. This added power allows you to get more entry angle and better pin carry, the key to higher scores.

The proven Reactor coverstock formula wraps this new core and, together, it creates a worry-free path to the pocket. The Match Up – because matching up is essential to winning, and winning NEVER GETS OLD.

Storm – We are "The Bowler's Company™"

TECHNICAL DATA

COVERSTOCK

Reactor™ Solid Reactive

WEIGHT BLOCK

Stinger™ 2.0 Core

FACTORY FINISH

1500-grit Polished
