

PITCH PURPLE™

PURPLE STRONG

Storm has built its reputation by offering products at the forefront of technology and by equipping to generations of champions who have won the most prestigious competitions. Today, Storm can be found across the globe offering the most complete line of bowling balls to suit every style of play.

THIS IS YOUR SIGN

The Storm Bolt logo is easily identifiable, and so should be your ball reaction. The Pitch Purple features a redesigned coverstock with the tried-and-true Capacitor Core. This not only retains the phenomenal control and feel of its predecessor, the Pitch Black™, but it also lives up to the iconic backend motion that Storm is renowned for. This high level of control will provide aggressive players with the license to swing for power. Finesse players will find their mark without fuss while the ball maintains ample power at the pins.

The Pitch Purple has enough backend potential to hit steep angles and confidently make it back to the pocket. On our 35' and 41' test patterns, the Pitch Purple created 9% and 17% more entry angle than the Pitch Black respectively. This rare combination of urethane midlane with responsive backend is a bonus that makes this ball one of the most maneuverable balls to date.

Keep looking to Storm to fill in your arsenal gaps. That's what makes us "The Bowler's Company™"
