

STROKER

SUN STORM LETM SMELL ME! LEMON MERINGUE STORM

Quite possibly the most treasured core of professionals and amateurs around the world, the C3 Core is as forgiving as it gets. Whether you're drilling one or rolling one, the consistency of this core is second to none. SPEC stands for "Storm Performance Enhanced Coverstock". The intent behind this formula was to create something that withstands the rigors every bowling ball endures each time it takes a trip down the lane; namely, the friction and oil it encounters. With SPEC, you can expect consistent performance that is as
