

# Volatility Torque™

The S84 Response™ Pearl Coverstock is the most aggressive pearl cover used by 900 Global. This is a pearl that actually handle fresh, oily conditions with ease!!

Volatility™  
Asymmetric Core

S84 Response™  
Pearl Coverstock  
1500 Polished

The Volatility™ Asymmetric Core will provide quick revolutions combined with a strong change of direction. The moderate intermediate differential will ensure that the ball will save as much energy as possible for the backend!!

Use the Volatility Torque™ on fresh heavy oil conditions when maximum backend is desired.
